

MOTIP Engine Cleaner

Ord.-no.: 090506

Technical Information

Clean engines of vehicles and machines with MOTIP Engine Cleaner. Engine Cleaner has high dissolving properties without leaving a residue. It is also non-conductive and non-corrosive.

Quality & properties

- High dissolving properties
- Leaves no residue
- Non-conductive
- Non-corrosive
- Misty spray pattern

Physical & chemical data

- Base: Aliphatic hydrocarbons
- Colourname: Transparent
- Smell: characteristic
- Surfaces: Motor Vehicles, Agricultural Machinery, Motorized Garden Tools, Construction Machinery
- Minimum Working Temperature: 10 °C
- Maximum Working Temperature: 25 °C
- Spray rate: 1,11
- Vapour pressure: 3500/20 bar
- Flash point: n.a. °C
- Relative density: 0.78 g/ml
- Storage stability: 10 years
- Content: 500 ML

How to use

- Before use, carefully read the directions on the packaging and act accordingly.
- The aerosol should have room temperature.
- Best processing temperature 10 to 25°C.
- Engine cleaner contains a flammable solvent, therefore allow engine to cool down.
- Before treatment, cover conductive parts and switch off electrical installations.
- Equally spray the parts to be treated and allow several minutes to take effect. Treat persistent contamination with a brush. Rinse with water. The rinsing water should be regarded as chemical waste.
- After cleaning, dry the conductive parts with air.

Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labeling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

For any further technical questions call our hotline from Monday to Thursday from 9 h a.m. to 3 h p.m. or on Friday until 12 h p.m.

As of November 24, 2021 – This release replaces all eventually earlier issued versions.
