

MOTIP Industrial Cleaner

Ord.-no.: 090509, 290509

Technical Information

Remove contaminants from treated and untreated metal and various plastics with MOTIP Industrial Cleaner. Industrial Cleaner is for universal use, has high dissolving properties, leaves no residue, and is non-conductive and non-corrosive.

Quality & properties

- Powerful jetspray
- High dissolving properties
- Fast evaporation
- Non-conductive and non-corrosive
- Leaves no residue
- 360° valve

Physical & chemical data

- Base: Mixture of organic solvents
- Colourname:
 - ◊ Transparent
 - ◊ transparent
- Smell: characteristic
- Surfaces: Bearings, Machine Parts, Gear Wheels, Garden Tools, Locks, Garden Furniture, Cylinders, Wooden Parts ,Rails (Car) Windows, Fastenings, Floors and walls, Axles
- Minimum Working Temperature: 10 °C
- Maximum Working Temperature: 25 °C
- Spray rate: 3,55
- Vapour pressure: 5500/20 bar
- Flash point: <21 °C
- Relative density: 0.75 g/ml
- Storage stability: 10 years
- Content:
 - ◊ 500 ML
 - ◊ 200 ml

How to use

- Before use, carefully read the directions on the packaging and act accordingly.
- The aerosol should have room temperature.
- Best processing temperature 10 to 25°C.
- Before use, shake the aerosol.
- Before treatment, cover conductive parts and switch off electrical installations.
- Spray the parts to be treated and allow to take effect. Remove persistent contamination using a brush.
- Repeat the treatment till the contamination has disappeared. Contaminated industrial cleaner should be regarded as chemical waste.

Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labelling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

For any further technical questions call our hotline from Monday to Thursday from 9 h a.m. to 3 h p.m. or on Friday until 12 h p.m.

As of November 24, 2021 – This release replaces all eventually earlier issued versions.
